2126 spoke to Lsp Mae Springer OPP as I was concerned with our approach, all indications I have is that PLT had resolved the issue at Rideau & Sussex & the group had agreed to move further west, they went to action & I checked w/ Event Coordinator Mark Patterson who told me to call Rob Drummond who informed me that they are to not action right now as the City did not want them closer. I informed PLT that they had to stand down on the movement. I spoke to Andy Flanagan and he indicated that PLT had accomplished his mission statement for Thursday but they could not action it.
